This brochure provides a broad overview of reimbursement for XIFAXAN based on the most current information available at the time of preparation. Information contained in this brochure and/or provided through the XIFAXAN REIMBURSEMENT HELPLINE is intended as general guidance only and is not a guarantee of coverage. Applicable requirements for confidentiality of patient identifiable information, if any, under HIPAA remain the responsibility of the physician's office. All benefits are subject to individual plans and policies using guidelines established by payers.

Safety Considerations:

XIFAXAN (rifaximin) Tablets are indicated for the treatment of patients (≥ 12 years of age) with travelers' diarrhea caused by noninvasive strains of *Escherichia coli*. XIFAXAN should not be used in patients with diarrhea complicated by fever or blood in the stool or diarrhea due to pathogens other than *Escherichia coli*. XIFAXAN should be discontinued if diarrhea symptoms get worse or persist more than 24-48 hours, and alternative antibiotic therapy should be considered.

In clinical trials, XIFAXAN was generally well tolerated. The most common side effects (vs placebo) were flatulence 11.3% (vs 19.7%), headache 9.7% (vs 9.2%), abdominal pain 7.2% (vs 10.1%), and rectal tenesmus 7.2% (vs 8.8%).

Salix Pharmaceuticals, Inc., offers a toll-free REIMBURSEMENT HELPLINE as a support service for its XIFAXAN™ customers. The HELPLINE is staffed by trained reimbursement analysts to answer your questions regarding third-party payer coverage information for XIFAXAN.

The following are some of the services offered by the HELPLINE:

- Provide current reimbursement policies for private payers, Medicaid, and Medicare
- Verification of individual patient coverage
- Verification of insurance coverage associated with the patient assistance program
- Conduct prior authorizations and/or provide support assistance
- Provide customized research and literature information to assist providers with coverage or appeals
- Provide published pricing information (e.g., AWP)

How to Use the REIMBURSEMENT HELPLINE:

Reimbursement analysts at the XIFAXAN REIMBURSEMENT HELPLINE are available between the hours of 8:30 am and 5:30 pm Eastern Time, Monday through Friday.

When calling please be prepared to:

- Discuss the nature of your specific reimbursement problem
- Identify the patient's name, policy ID number, and group number
- Provide the name and telephone number of the third-party payer from the patient's insurance and/or prescription card

Steps to obtain prior authorization for XIFAXAN:

- Submit patient insurance information to the XIFAXAN REIMBURSEMENT HELPLINE
- The XIFAXAN REIMBURSEMENT HELPLINE will verify patient benefits and obtain treatment prior authorization, if required
- Be prepared to provide patient treatment, diagnosis, and specific supporting documentation as needed and at the request of the XIFAXAN REIMBURSEMENT HELPLINE

Occasionally, there may be periods of high call volume to the HELPLINE. Please be prepared to leave your name and telephone number in case all analysts are assisting other callers. Every effort will be made to return your call that same day. Calls received after normal HELPLINE hours will be returned the following business day.
